

DAILY RECORD

SATURDAY, OCTOBER 11, 1913.

The Business Office of the **DAILY RECORD** will be hereafter in the office of H. E. Brinkley, at Michael's cigar store, Main street, opposite Meadow Valley.

THE APPROACHING ELECTIONS.

Very great interest is manifested among our readers in regard to the elections to be held within the next few weeks. First in order are the general elections to be held in Pennsylvania, Ohio, Minnesota, Iowa and Wisconsin, which take place on Tuesday next. On Wednesday California will elect a Justice of the Supreme Court, and Judges in several districts and counties. Besides California, the States of Ohio, Iowa, Wisconsin and Minnesota have three tickets in the field. Texas will hold her election on the 3d, and Massachusetts and New York on the 4th. The date of these elections is so near at hand that it would be utterly futile in any one, at this great distance, to prognosticate concerning the result in any of the States east of the Rocky Mountains. Besides the action of the Grangers in some of the States, and the formation of an Independent party in others, readers it is impossible to base a calculation upon any previous result. Mississippi and Virginia also hold elections soon. In the former the fight is between Ames and Aldrich, the two Senators, and both Republicans. In the latter it is a fight between Republican and Conservative forces. We shall keep our readers advised of results as fast as they are received by us, either by telegraph or mail.

INDICTED FOR INTERFERING WITH WITNESSES.

A. F. Scott, who is charged with having offered the services of the ship *Sunrise* money to abandon the prosecution of Captain Clarke, has been indicted by the United States Grand Jury at San Francisco. It is really gratifying to see that an effort is being made to break up the shameful practice of spitting away witnesses in criminal cases. If found to be guilty of the offense charged, we hope to see a severe penalty inflicted.

The Alta says the contest which is to be decided on next Wednesday is between DeWitt and McKee, and it is generally conceded that most of McKinstry's votes will come from the Republican party. If he should show much strength McKee will be elected, and therefore every Republican vote cast for McKinstry is really half a vote for the Democratic candidate.

SPEAKING OF THE PEOPLE'S party in Ohio, the Cincinnati Commercial says: "There is no doubt that it is the third party movement is hourly gaining strength throughout the State. Collins, Oliver and Haverstick, who are addressing meetings of Liberals, are well received, and are holding large and interesting meetings. The force of the new party is a complete surprise to the old fogies."

The Daily Sun (evening) will be issued in San Francisco about the 20th. It will be of the size of the Post; will be independent in religion, etc.; will oppose monopolies, Chinese immigration and subsidies, and advocate reform in the civil government; also, free trade and farmers' and laborers' rights. The proprietors are J. M. King and R. P. Fitzgerald.

INFORMATION is wanted of Geo. W. Miller, who, when last heard from by his mother, was at Warm Springs, Sulphur county, California. Address Mrs. Rebecca Miller, Markville, Alpine county, California.

The Yolo Mail and the Russian River Flag (both Republican papers) support McKinstry, Independent, for Supreme Judge of California.

KICKING IN THE TEARS.—The San Jose Mercury is one of the old-line Radical sheets, and its editor never has been afraid to speak his mind. Referring to some of Grant's recent appointments, the Mercury says in conclusion:

The records of Conkling and Bingham in the Credit Mobilier, and in the retroactive salary swindle, are too well known to need comment, as are also their exploits as champions of the railroad and other monopolies. In the face of the indignation protests which the people are everywhere putting forth, in spite of the deep feeling everywhere prevalent against the monopolies and their agents, the Chief Executive insults the popular sentiment by appointing to the chief position in the nation one of the oppressors' most truckling tools. We say nothing in regard to his haste in the appointment of Tom Shannon in obedience to the mandates of the Central Pacific Company, nor his aspirations for a third term, of which he now makes no secret. We only say that all the influence of Credit Mobilier politicians cannot save his political goose. The people have been driven to the wall and are fighting for their lives. They will not be left to spare one who has so abused their confidence as has Ulysses S. Grant.

The Sixth Annual Report of the United States Geological Survey of the Territories, by Professor Hayden, is published. The maps accompanying it will make a complete revolution in published geographies of the Snake, Madison and Yellowstone headwaters. Madison Fork, it says, rises in a small lake, hitherto unnoted, and Madison Lake belongs entirely to the Pacific slope. At the upper end of Shoshone Lake, a new glacier basin has been discovered, with about 100 springs, many of a still more remarkable character than those of the famous Fire Hole Basin. From the summit of the divide between the Atlantic and Pacific watersheds, the scope of vision embraced a radius of 150 miles, within which 470 mountain peaks worthy of name could be discerned, and the area swept by the eye could not have been less than fifty thousand square miles, a large portion reaching Montana, Idaho and Utah Territories. The report dwells at length upon the interesting and remarkable features of the section. This year the explorations of Prof. Hayden have been confined principally to our own Territory and our neighbor, New Mexico, and the next published report of the Geological Survey will show many new and interesting facts with regard to the resources of our own section of the West.—(The People, Pueblo, Col.)

SEVENTY-FIVE towns in Connecticut have decreased in population during the ten years preceding the last census. There are thirty towns in the State which have less than 1,000 inhabitants.

Telegraphic Dispatches

SPECIAL TO THE PEOPLE'S DAILY RECORD.

Eastern Dispatches.

Survivors—Drafts Daily Made on the Treasury Reserves.
WASHINGTON, October 9.—Secretary Robeson is examining the *Polaris* survivors as to the loss of the ship and the death of Captain Hall.

The treasury reserves are now being drawn on daily to pay the actual expenses of the Government. There is no apprehension at the Department that the draft upon the forty-four millions will be very heavy. In the ordinary course of business the outstanding legal tenders, now shown to be over \$356,000,000, will be reduced again to those figures at the earliest practicable moment. It may be before the issue of the next public debt statement. The Secretary emphatically asserts that the outstanding legal tenders are not to exceed the minimum figures more than absolute demands which the Government requires.

A Failure and the Cause of It.

New York, October 9.—Gibson, Casanova & Co., stock brokers, say their suspension is one of the results of the recent panic. Depositors drew out their funds and securities because they were unavailable. People indebted to the house were unable to pay, and in some cases failed. Added to this, a large amount of capital was locked up in a new railroad. They express belief in their ability to pay.

Returning from the Yellowstone Expedition.

OMAHA, October 9.—Six companies of the eighth infantry and four of the ninth, returning from the Yellowstone expedition, came down the river on the steamer *Josephine* today.

The Stokes Case—An Appeal in the Federal Will Case—Irving and the Nathan Murder.

New York, Oct. 9.—Six jurors are obtained in the Stokes case up to the adjournment of Court.

Counsel for George Washington Bow-en have filed bonds preparatory to an appeal from the decision in the *Jumel* will case to the United States Supreme Court.

It is said Irving will prove that Kelly, now in Sing Sing, killed Nathan with the iron dog, which was obtained of a casker in the Brooklyn Navy Yard, that ten thousand dollars in bonds, which were in Nathan's safe, were seen in Kelly's hands a few days after the murder; that these bonds were negotiated, and that Nathan's watch and chain were pawned in Centre street the day after the murder.

Charges and Counter-charges of Robbery—The Pooling Arrangements for Greenbacks to Stop.

New York, Oct. 10.—Maria Urbach, who was taken into custody with two Spaniards, charged with robbing the Bank of Commerce at Havana, yesterday accused the Spanish Consul of robbing her of money, diamonds and drafts for \$17,000. Her affidavit declares these things were taken from her baggage on board the steamship *City of Mexico*, under false pretences.

There is a very early prospect of putting an end to the pooling arrangement for greenbacks. Many old and prudent managed banks are restive under the arrangement, and desire the liberty of managing their own greenbacks as well as national bank notes, and to receive and pay them out across their counters. Their receipts can't be made as free as before the suspension, so long as there is a discount on bank checks in Wall street, and they insist on a resumption in greenbacks or national bank notes across their own counters. No day is named for the meeting of the Clearing House banks, to relax the existing arrangement, but the probability is that it will not be later than Saturday or Monday next.

Foreign News.

Promised Explanation of Victor Emmanuel's Second Visit to Berlin.

Rome, Oct. 9.—An explanatory note regarding King Victor Emmanuel's second visit to Berlin is expected soon from the Italian Ministry of Foreign Affairs, to correct erroneous interpretations which have been given to the event.

Pacific Coast.

A Villain at Large—The Trial of Curran—Damaging Effect of the Rain—Gigantic Land Operation—Reported Resignation of Freeman Aiding the Memphis Sufferers.

SAN FRANCISCO, October 10.—John Wright, second mate of the ship *St. Charles*, who was accused of beating and wounding a seaman on board that vessel during her voyage from New York to this port, is missing, and it is believed he has fled to avoid arrest.

Owing to the calling of the equity calendar in the Fifteenth District Court, the trial of Thomas Curtin for the killing of William Johnson was not commenced at the usual hour. The throng was so great about the door of the courtroom that it was almost impossible for persons to get in or out.

The recent rain had a very damaging effect on the wooden pavement. Nearly every block in the city, where it is laid, has raised up in hillocks in all directions, rendering the street quite impassable for loaded vehicles.

A party of gentlemen sailed yesterday for San Diego for the purpose of negotiating for the purchase of the Santa Rosa rancho, 50,000 acres, in the northern part of that county, the object being to subdivide the tract into farms for settlers.

It is reported that Captain Parker, of the steamer *Montana*, has tendered his resignation from the service of the Pacific Mail Company. He held a command in the Confederate Navy during the war.

The Fire Department of this city voted \$1,000 in aid of the people of Memphis from the Fire Department's charitable fund. Commissioner Rainey says he will contest their right to make the donation.

The Cadets at Omaha—Fined for Smuggling—The Scientific Party—More Outrages on Seamen—Cotton-Hubert Declared Treasurer.

SAN FRANCISCO, Oct. 10.—The San Francisco Cadets, under Captain McDonald, returning from the East, gave an exhibition at Omaha.

The firm of Gantner & Vianny have

been indicted in the sum of \$932 for smuggling silk from France into this city.

Prof. Marsh, of Yale College, and his scientific party have returned from Oregon and are now at the Grand Hotel.

John Wright, second mate of the ship *St. Charles*, has been arrested on a charge of cruel treatment to sailors on that vessel.

It is stated that the entire crew of the ship *Baltic*, from New York, which arrived Saturday, were shanghaied on board. Several have lodged complaints in the United States District Court.

The Belcher dividend of \$312,000 was paid today.

California will produce this year about 1,000 bales of cotton.

The recent gains Hubert the office of Treasurer by a majority over Bancroft of 53 votes.

Affairs of the Stockton and Visalia Narrow-Gauge Railroad.

STOCKTON, Cal., Oct. 10.—At a meeting of the San Joaquin and Tulare Narrow-gauge Railroad yesterday, engineer Blair submitted full reports on the Eastern line from Stockton to Visalia. Total length of the line from Stockton, 475 miles; greatest height above tide, 160 feet; maximum grade, ascending south, 52.8-10 feet per mile; average grade per mile, 20 and 87-100 feet; total length of bridging of all kinds, 20,570 feet; total estimate cost of eastern line, \$1,973,166; total length of the western line from Stockton to Visalia, 164 miles; greatest height above tide, 373 feet; maximum grade, ascending south, 47.52-100 feet; descending south, 31.68-100 feet; average grade per mile, 11.4-100 feet; total length of bridging of all kinds, 23,582 feet; total estimated cost, \$1,877,448. The excess of average cost per mile of the western line over the eastern is in consequence of the greater amount of bridging required on the western line. The directors did not vote on the adoption of either line. A committee was appointed to draft a bill to be submitted to the next Legislature, to authorize the several counties to subscribe to the capital stock, but not in form of a donation. The stock subscribed for to date is \$188,000 and ten per cent. paid. It is understood that the bill to be drafted, authorizing the counties to subscribe, will except San Joaquin. The next regular meeting of the Board will be in November.

Accidental Death—Stage Robbery.

VALLEJO, Cal., Oct. 10.—A young son of Hugh Daley, was seated alone in a wagon, when the horse suddenly started, throwing the boy backward upon his head, knocking him senseless. He died this morning.

REINOSO, Cal., Oct. 10.—The Overland mail stage, driven by Charles McConnell, was attacked near Buckeye this morning by four masked men, armed with shotguns and revolvers. They got \$1,292 from Wells, Fargo & Co., \$1,000 from a Chinaman and about \$200 from other passengers.

The Independents in Battle.

CMOS, Cal., Oct. 10.—The Independent movement in Butte county is boiling hot. Prominent Republicans and Democrats openly declare for McKinstry. Gen. J. Bidwell is among the most prominent of the Independents here.

The Oregon State Fair.

SALEM, Ore., Oct. 10.—A trotting match, 3 m. 5 f., free for all, was had today. The entries were: McClellan by B. B. Acker, Highland by J. J. Welch, Eph Maynard by O. P. Bacon. Eph won every heat, and was awarded the first premium, \$350; Highland the second, \$50.

A match game of base ball for \$100, offered by the Secretary, came off between the College nine of Salem and the Pioneer of Portland. The College nine won by 30 runs; score 52 to 22.

Suit against the Chronicle for Libel.

CORTEZ, Cal., Oct. 10.—The papers were filed today in the clerk's office in the case of Wm. C. Johns vs. Chas. De Young & Co., publishers of the *San Francisco Chronicle*, for a libel, said to have been committed on the 17th of August last.

From Arizona and Mexico.

SAN DIEGO, Cal., Oct. 10.—The Tucson Citizen, of the 11th, says the new school-houses are ready for occupation at Prescott, Phoenix and Florence.

We are advised that the Mexican Government has annulled the order of November last and will hereafter require strict compliance with the law which makes it obligatory on the part of American shippers to procure a permit from the City of Mexico before the free transit of freights can be made.

Fifty thousand dollars have been set apart to continue the building of Camps Grant and Lowell.

NEWS ITEMS.

In relation to the Cumberland Gap Cave, in Tennessee, a correspondent says that after General Morgan's retreat from that spot, the cave was explored for a distance of four miles by Confederate soldiers, and a new opening discovered. The place has never been thoroughly investigated, but chambers, far surpassing in grandeur that described by a former correspondent, have been found. In penetrating the rock, it was found that the new entrance leads for 6,000 yards through sandstone; and in this section of the cave vast quantities of human bones of gigantic size were found, some of the skulls being large enough to put on over a man's head.

The Cincinnati Enquirer says that the Administration of Grant has, in the last five years, collected in taxes from the people not less than seventeen hundred and fifty millions of dollars, a sum equal to two-thirds of the national debt. But it is not claimed that he has paid off to exceed two hundred millions of dollars, and it is a mooted question whether, in fact, it has paid off anything, for the accounts of the amount of the debt when he came into office vary more than two hundred millions.

The milk company furnishing the milk in the districts in London where typhoid fever broke out have acknowledged their agency in the spread of the infection, and have appointed a Sanitary Inspector, who is to visit each farm furnishing their supply weekly, and to report the state of the premises at each visit. There has been a typhoid epidemic at Wolverhampton, and there, too, the contagion was clearly traced to the milk supply.

NEVADA STATE ITEMS.

VIENNA.

We have both the *Enterprise* and the *Chronicle*, of Tuesday last. From the former we obtain these items:

A few days since the daughter of a well-to-do capitalist, residing on the outskirts of Walker river, a handsome and well educated young lady about sixteen or seventeen years of age, eloped with a young man of the Finke persuasion who had been wooing about her father's place. The girl and her dunsy lover got considerably the start of the father, and it would seem did some traveling toward the wilderness and the warrior's castle of sagbrush on the Lake of Walker, but the father did not let the grass grow under his feet or his horse's hoofs. He procured the best horse in the settlement and rode a distance of 180 miles in 18 hours. He caught his runaway daughter somewhere between Walker river and Lake, and the horse headed. What became of the girl and her lover we have not learned. The chances are that the irate parent made it so warm for him that he will not hereafter hanker after a white feather-in-law.

George I. Lammon, who last Sunday morning returned from a trip to the East, says he met with Chris. Blair, director of the Nevada State Prison, on the occasion of the grand opening. He is doing a flourishing business. Besides his business in his store he is also doing a large commission business. He is, of course, operating under an assumed name. He says he is a reformed individual.

The Chronicle affords us the following clippings:

George W. Fox, an old Humboldt prospector and miner, who, for the last few years, has been taking chances on interviewing the Apaches of Arizona, was in town today, and left on the afternoon train for Carson, from whence he will proceed to the new mines, on the mountains between Genoa and Walker river.

Dr. C. C. Green of this city performed a remarkable feat last week. For the twenty-six hours ending at 8 o'clock Friday night he kept up the birth of no less than seven children, and of the number there was not a single "pair of twins."

The sale of tickets in the Nevada City Concert is progressing with unabated rapidity in the Eastern States, and there can be no doubt as to the popularity of those who are posted that the drawing will come off on the 10th of December.

REMARKS.

We copy the following items from the *Sentinel* of Thursday:

Within the past few days large numbers of Indians have made their appearance in town, whither they came from their annual tour of anti-gathering in the hills. So large a proportion of our population do these red men form that their absence cannot be observed; and their coming alike elicits casual attention, particularly from families and others, who find their services in the performance of simple domestic about the household often convenient.

Sheriff Sullivan and Mr. Green, brother of Calvin Green, who was murdered north of Eureka not long since, left on horseback last night for Hamilton. They go on business connected with the examination of Matheny and Finney before the Grand Jury of White Pine county.

W. L. Fritchard shipped yesterday for the Hoosac, 60,000 pounds of bullion, and for the Richmond Company, 40,000 pounds. Total, 100,000 pounds.

CARSON.

The Appeal of Tuesday, is at hand. We copy the following item:

The State Prison grant, the Public Building grant, and the University grant all coming together, \$1,080,000 acres of government land, have been successively played out. Of the Public School grant, 500,000 acres, there are only 10,000 acres left to be applied for. The Mining School and University grant, 90,000 acres alone remains intact. This land may be sold by the State, on condition, however, that in case the object for which the grant was made is not accomplished by May 10, 1877, the State will be required to refund a dollar and a quarter on each acre for all land thus sold. The purchaser's title will hold good under any circumstances.

The Reville, of Tuesday, objects to cows running at large. It says on another subject:

We were visited today by Price, the herder on Birchman's ranch, who was recently examined by a medical commission in reference to his sanity. He is perfectly sane and rational on all subjects but the one of religion. The loss of his wife and two children some time ago seems to have preyed upon his mind to such an extent as to unsettle it.

The New York World (Democratic) says that the administration of President Grant has strongly introduced and fortified in and throughout the Republican party, by reason of the management of the National finances, the reduction of the public debt, and the general prosperity of the country."

New To-Day.

A CHECK DRAWN BY JOHN O'CALL, on the State Bank of Nevada, on the 24th day of July, 1871, in favor of Y. C. Cline and A. Young, and against the Ingot Silver Mining Company, for the sum of sixteen hundred and twenty-eight and 90/100 gold coin dollars, damages, together with \$104.75-100, tax costs, and all accruing interest, have been levied on the following property, to wit: That certain mining claim situated on Potosi Flat, in Elko Mining District, Lincoln County, Nevada, located on the 24th day of July, A. D. 1871, and recorded in the Elko Mining District Records on the 24th day of July, A. D. 1871, and designated as "Ingot Silver," said mine containing 800 feet, running westerly from the point of location, to and including all bills due the firm at that place.

PHOTOGRAPHY. The Reville, of Tuesday, objects to cows running at large. It says on another subject:

LOST.

A CHECK DRAWN BY JOHN O'CALL, on the State Bank of Nevada, on the 24th day of July, 1871, in favor of Y. C. Cline and A. Young, and against the Ingot Silver Mining Company, for the sum of sixteen hundred and twenty-eight and 90/100 gold coin dollars, damages, together with \$104.75-100, tax costs, and all accruing interest, have been levied on the following property, to wit: That certain mining claim situated on Potosi Flat, in Elko Mining District, Lincoln County, Nevada, located on the 24th day of July, A. D. 1871, and recorded in the Elko Mining District Records on the 24th day of July, A. D. 1871, and designated as "Ingot Silver," said mine containing 800 feet, running westerly from the point of location, to and including all bills due the firm at that place.

NOTICE.

THE COPIES OF THE HERETOFORE existing between Daniel Strickland and James O. McCormick, under the firm name of "Strickland & McCormick," this day dissolved by mutual consent. Daniel Strickland is to pay all indebtedness incurred at Strickland & McCormick, and to collect all bills due the firm at that place. James O. McCormick is to pay all indebtedness incurred by the firm at Pioche, Nevada, and to collect all bills due the firm at that place.

Sheriff's Sale.

BY VIRTUE OF AN EXECUTION ISSUED BY the District Court in and for the County of Lincoln, State of Nevada, and to me directed and delivered, for a judgment rendered in said Court on the 10th day of September, A. D. 1871, in favor of Y. C. Cline and A. Young, and against the Ingot Silver Mining Company, for the sum of sixteen hundred and twenty-eight and 90/100 gold coin dollars, damages, together with \$104.75-100, tax costs, and all accruing interest, have been levied on the following property, to wit: That certain mining claim situated on Potosi Flat, in Elko Mining District, Lincoln County, Nevada, located on the 24th day of July, A. D. 1871, and recorded in the Elko Mining District Records on the 24th day of July, A. D. 1871, and designated as "Ingot Silver," said mine containing 800 feet, running westerly from the point of location, to and including all bills due the firm at that place.

Friday, the 9th day of October, A. D. 1873, at 12 o'clock m., I will sell all the right, title and interest in and to the above described property, at the Court-house door, in Pioche, at Public Auction, for cash in hand, to the highest and best bidder, to satisfy said execution and all costs thereon.

By B. H. HERRON, Deputy Sheriff.

The above is hereby posted upon said date, October 10, 1873, by order of said Court.

By W. S. THAVIS, Sheriff.

By E. H. HERRON, Deputy.
